SYSCALL

Solutions in 2023

Company Overview

SYSCALL POLAND is one of the leading company of wireless-on-site messaging system based in Poland. Company is a branch office of NTTWORKS South Korean manufacture with operations all over the world since 1996. Syscall Poland has focused on developing the most complete and reliable wireless communication solution since establishment.

Also the most comprehensive product line is designed to provide wireless communication solution to variety business industries such as restaurant wireless calling system, guest paging system, retail calling system, nurse calling system, manufacture, logistics - just name a few.

Through innovative, reliable products and services, talented people, a responsible approach to business and global citizenship, and collaboration with our partners and customers, SYSCALL POLAND with NTTWORKS aims to become a leader of global wireless communication solution provider.

Syscall

Corporate Philosophy

01 Customer-Intimate

Based on our philosophy of "Customer First", we constantly develop and provide innovative and high quality products and services that satisfy various customer demands.

02 People-Oriented

We respect and encourage personal growth for our employees under our belief that the success of our business is led by nurturing each individual's charac- ter and ability.

03 Transparent Partnership

We respect our distributors and other business partner and work with them through long-term relationships to achieve mutual growth based on trust.

WHY SYSCALL?

Syscall

6 things that you should choose Syscall

EXPORT
100 COUNTRIES

SYSCALL is one of the leading company of wireless calling system based in South Korea since 1996. As our products are recognized for their excellent technology and competitiveness in various business and service areas, we export to more than 100 countries worldwide.

OWN INTERNAL R&D
DEPARTMENT
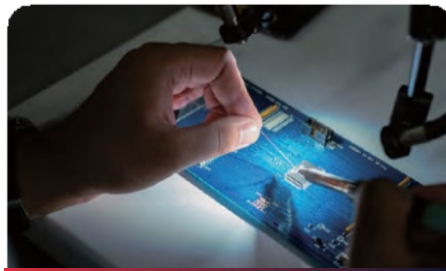

We continuously invest in research and development and extending it's investments year by year. Our R&D Department is not only to develop new products and services, but also to keep driving product improvement or innovation within existing business offering.

MADE IN SOUTH
KOREA

South Korea has a reputation of producing high-quality goods in IT market segment. Likewise, all of SYSCALL products are designed and produced in South Korea and we strengthen the competitiveness of our products through innovative quality control.

ALL PRODUCTS CE
CERTIFIED

SYSCALL's all products are CE certified. CE certification proves it meets minimum legal requirements of the relevant Directives. And implementing those requirements means that the products are safer and reliable for the users.

BEFORE, DURING AND
### AFTER SALES SERVICE
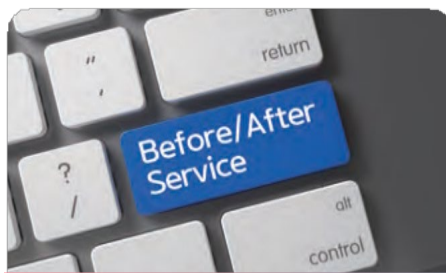

From consulting to shipment and after sales, SYSCALL manages all process directly. We provide timely, attentive, upbeat service to our customer, and making sure their needs affecting positively on the business.

LAUNCHING
NEW PERIODICALLY
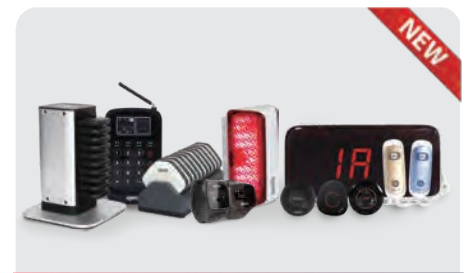

SYSCALL releases the NEW models every year. For the new development, we focus on marketplace and customer needs, and also try to reflect the market trends. Accordingly, it enables to provide more innovative and reliable products at competitive price.

Wireless Calling System
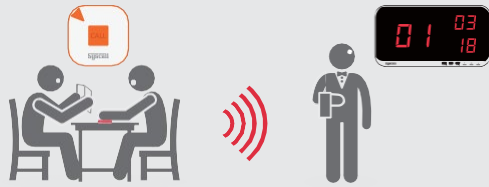

Benefits

- Improve Service Quality
- Improve Business Efficiency
- Reduce Labor Cost
- Increase Customer Satisfaction
- Increase Business Profit

Wireless Paging System

Benefits

- Improve Guest Experience
- Improve Customer Satisfaction
- Reduce Labor Cost
- Boost Productivity and Efficiency
- Improve Response Time

---

01 Calling System

Basic and standard calling system that is applicable to diverse business industries.

| ST-300 | ST-900 | ST-600 | SR-A2003 |

01 Direct Paging System

Just page directly from the call button. No need an extra receiver.

| ST-300-2B | ST-800-3B | SB-700 |

---

02 Multi-channel Calling System

A perfect solution for where are busy with a long waiting line and chaotic crowds - food courts, restaurants, hospitals, etc.

ST-5020   SR-A440
